Personal webpage

WHO AM I?

I'm a master student in computer science, option software engineering, at KU Leuven.

Looking for a 6 week internship, preferably team-based.

WORKING EXPERIENCE

2016 – ongoing
Londerzeel, Belgium

Member of steering committee

Playground service Londerzeel

- Evaluating and implementing improvements at the playground
- Acting as an intermediate level between the volunteer playworkers and the municipal youth consultant
- Organizing activities for the volunteer playworkers during the year, like a kick-off event or a Christmas party

2014 – ongoing
Londerzeel, Belgium

Volunteer playworker, Inclusion playworker, Teamleader playworker

Playground service Londerzeel

- *Volunteer playworker*: taking care of a group of children by playing games with them
- *Inclusion playworker*: taking care of one child with a disability, and trying to include him/her in as many games with the other children
- *Teamleader playworker*: being responsible for a week on the playground by managing, evaluating and supporting the volunteer playworkers
